

Flight Scientist Report
Monday 03/07/2022 ACTIVATE RF136

Flight Type: Statistical Survey Flight

Flight Route: KLF I OXANA 3130N07200W OXANA ECG KLF I

Special Notes: Second of two flights today. King Air had a problem before take off and returned to hangar and so this was a solo Falcon flight. The track went through same area of first flight today to study evolution.

King Air
